

Hack10 Eye Grab Hook

The Hack10 eye grab hook is fundamentally used to grab chain. As a result, it is commonly used in lifting applications as a chain shortening device, as well as for lashing. It features an eye attachment type for use with chain via a connector. Manufactured from alloy steel, the Hack10 eye grab hook is 25% stronger than a grade 8 equivalent, delivering a greater working load limit without the need for a larger diameter chain sling.

- Standards:

designed and manufactured in accordance with EN1677-1, ASTM A952/A952M, and DIN PAS 1061 and suitable for use in chain slings certified to EN818-4.
- Product sizes:

available for chain sizes from 6mm to 32mm and with working load limits from 1.4 tonnes to 40.0 tonnes.
- Temperature:

operational temperature range of - 40°C to + 200°C without reduction in working load limit.
- Material:

alloy steel.
- Testing:

crack detection following heat treatment, and proof load tested to 2.5 times working load limit.
- Safety factor:

4 : 1.
